DIESEL DELIVERY HOSE ASSEMBLIES

These delivery kits are suitable for dispensing diesel fuel, paraffin or light oils. They are of a robust design and can be used in arduous situations.

ATN100L

ATD10S

For Gravity Systems only.

Specifications:

ATN100 Range

Delivery Hose -

10' 0" of 1" diesel resistant hose with nylon reinforcement.

Gate Valve -

1" BSP, brass, full flow, PN16 rated.

Construction -

1" BSP tank connection to gate valve and hose.

Fully swivelling MANUAL trigger nozzle, with or without lock-on catch.

Security -

Gate valve locking bracket supplied when specified.

ATN34 Range

Construction -

As for ATN100 except for 3/4" bore hose, 3/4" BSP gate valve and non-swivelling MANUAL trigger nozzle, with or without lock-on catch.

Ordering Reference:

ATN100 - 10' 0" of 1" bore hose with 1" tank connection, gate valve and fully swivelling trigger nozzle.

ATN100C - As ATN100 but with lock-on catch to nozzle.

ATN100L - As ATN100 above but with the addition of a gate valve locking bracket.

ATN100CL - As ATN100 above but with lock-on nozzle catch and gate valve locking bracket.

ATN34 - As ATN100 above but with 3/4" hose and gate valve. Non swivelling trigger nozzle.

ATN34C - As ATN34 but with lock-on catch to nozzle.

ATN34L - As ATN34 but with the addition of a gate valve locking bracket.

ATN34CL - As ATN34 above but with lock-on nozzle catch and gate valve locking bracket.

ATD10S

Ordering Reference:

ATD10S - 1" BSP angle flow valve having an integral locking bracket. 10' 0" of 1" bore diesel resistant hose with a fully swivelling MANUAL trigger nozzle.

Optional Extras:

- A) - Nozzle Filter. Ref. TN 5600F.
- B) - Wall mounting trigger nozzle holster. Ref. TN 5700.
- C) - Extra length of delivery hose as required.
